

Webmaster's Report 2020

Thanks to all who have submitted photographs and mapping data for inclusion on the website over the past year. The largest number of visitors is invariably on Mondays after the latest walk photographs have been posted.

During the three month suspension of the rambles programme, many members continued to walk, initially on their own, then in small groups as rules were relaxed. I published photos submitted from these walks in order to try and keep interest going.

Our on line communications were upset when Yahoo announced in October that they would no longer be hosting egroups. Our yahoo group had served us well over the years, so what was to replace it? I initially, without sufficient thought, I set up a "nextdoor" group, which resulted in those who joined receiving all manner of unwanted messages and adverts.

As with all problems and emergencies I turned to Harry, who suggested setting up a "forum" message board on our website, which is now up and running. If you've not already registered, it's pretty straight forward and there are no privacy issues, so please consider doing so. As it's restricted to RA members only, please register with a user name of your own name followed by your membership number.

Finally, if you are not on the website, mailing list, please click on "join email list" to ensure that you're kept up to date with all that's going on.

Phil Trafford
