

## **Webmaster's Report 2022**

Thanks to all members who have helped over the past year by submitting mapping data and photographs of our group rambles.

Most visitors to the site are on Monday each week after details of the Sunday walk have been posted.

The message board forums have been discontinued as they were not being used.

The group's main platform for quick communication is now via the whatsapp group. If members aren't already in it, they can easily join up. Details are on the home page of the website.

I would welcome any relevant news items for inclusion on the site.

Phil Trafford
